

MY-VILLAGE FOR SCHOOLS

Your school at the heart of its community.

A safe, simple digital home for school news, notices, achievements and local connection.

my-village.ie

Your school already has systems for managing school.

My-Village has a different job. It gives school life a clear, trusted public home inside the community around it.

- Keep your existing systems for administration, attendance, payments and private school processes.
- Use My-Village for the public-facing story: news, announcements, events, achievements and useful school information.
- Let parents, students and local people see what is happening without turning the school page into another social network.
- Give authorised staff control over what the school publishes and how the school is represented.

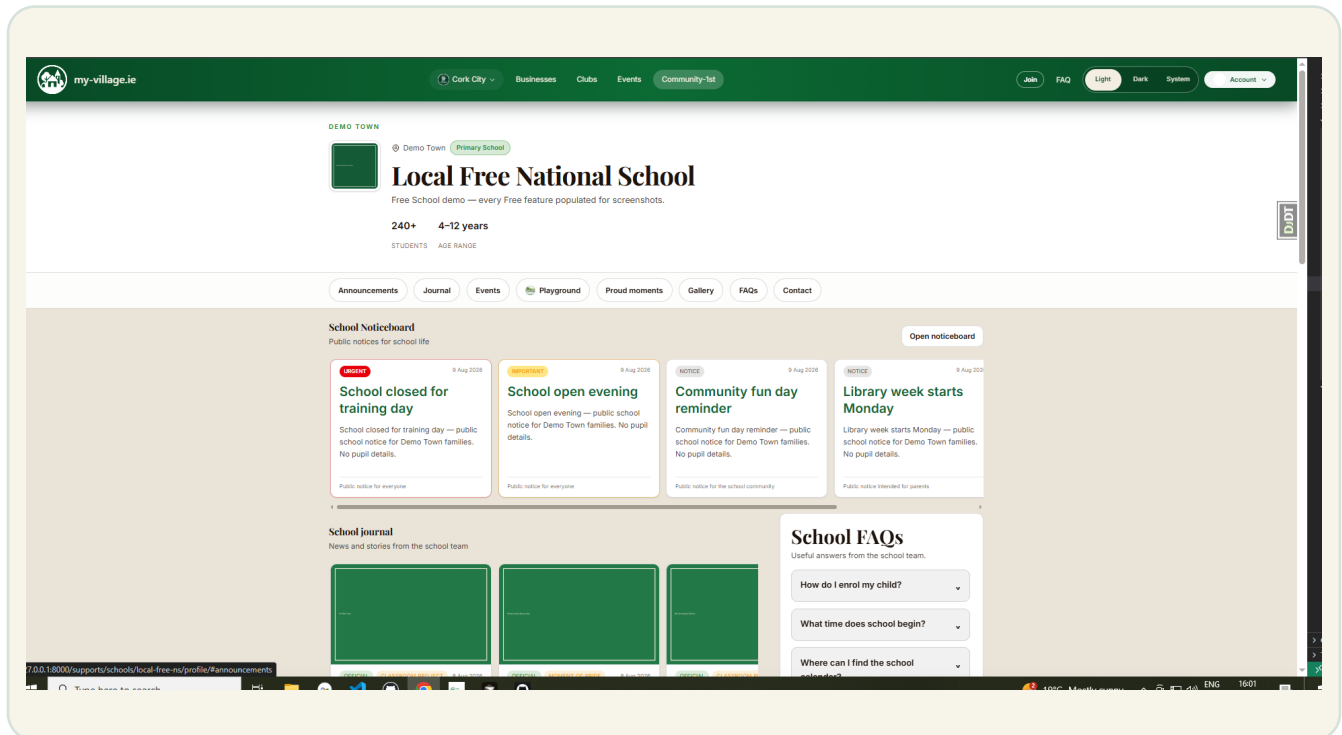

Think of it as the digital front page for school life.

Public, useful, local and controlled by the school.

A real digital home for the whole school story.

Families can see notices, news, events and useful school information in one official public place - presented in the school's own identity.

Noticeboard

Urgent, important and everyday public notices stay easy to find.

School life

Journal stories, proud moments, events and galleries show more than administration.

Useful details

FAQs, resources, contact, location, facilities and enrolment information live together.

A safe, organised home for the school story.

The School Journal keeps official posts together, makes earlier stories easy to find and gives families a trusted place to read - without public commentary underneath.

Your School Journal.
Safe. Simple. Organised.

No public commentary

Previous posts, easy to find

School updates in one safe place

MY-Village
Now here for your school — and much more.

Staff-controlled publishing. No public comments or reply threads.

Give students a reason to actually visit My-Village.

The Playground keeps a little fun inside the school experience: simple educational and general-knowledge games, quizzes and team challenges.

THIS WEEK AT MAYFIELD COMMUNITY SCHOOL

Quiz Champions: 2B

Teacher to beat: Mr Murphy - 8,450 pts

School streak: 6 days

THE PLAYGROUND

- Class and team scores make it fun without publicly ranking identifiable individual children.
- Teacher challenges and school high scores can add humour and friendly competition.
- Inter-school challenges can come later once the core Playground experience is established.

THE PLAYGROUND STAYS FREE.

A school is one of the pillars of a community.

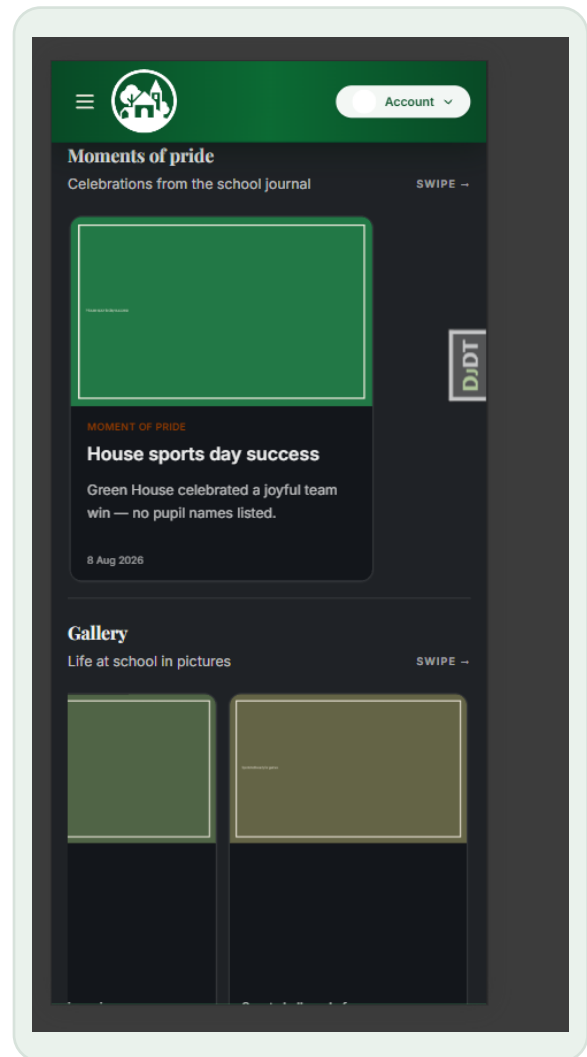

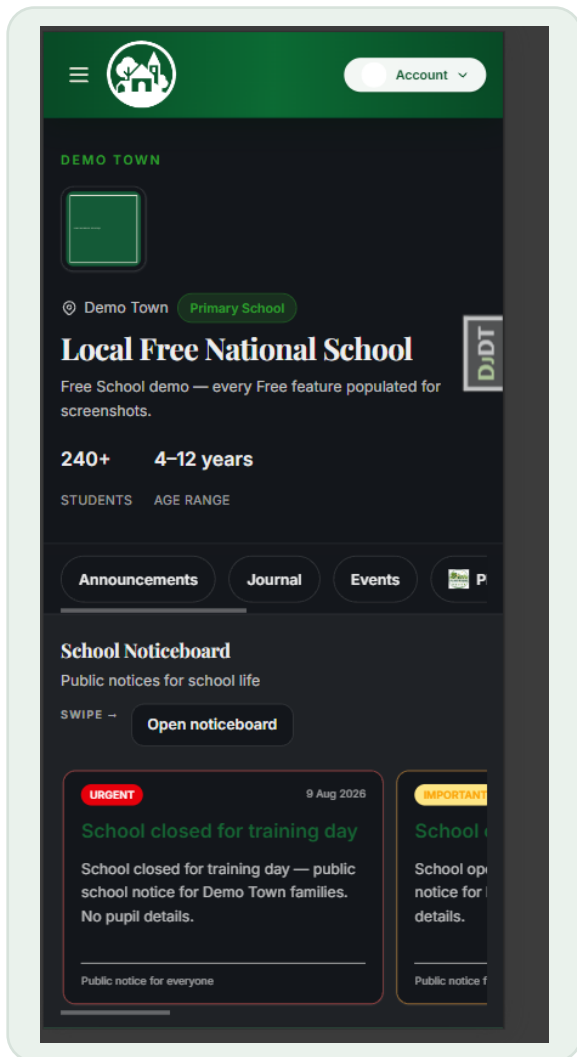

My-Village gives that school a visible place inside the same local environment as the people, clubs, organisations and activity around it.

School information that works naturally on a phone.

The same official school page adapts for mobile, so families can swipe through notices, stories, events, resources and photographs wherever they are.

Quick information. Real school character.

The Noticeboard makes important updates clear. Journal stories, achievements and galleries make the school feel alive - with everything published under staff control.

Give school updates a voice.

SchoolCast gives authorised staff a simple way to create and publish school audio updates - from principal messages to the stories that make up school life.

SCHOOLCAST

This Week at Mayfield

Principal message • sport • TY update • Friday fundraiser

5:24

- Principal and staff messages can become easy-to-hear school updates.
- Sport, events, achievements and weekly roundups have a natural audio home.
- Student interviews, TY reports and other student contributions stay staff-approved before publication.

The school controls what goes out.

SchoolCast adds personality without giving up editorial control.

Take the pressure off the blank page.

The AI Helper supports authorised staff with the everyday writing behind school communication - notices, event descriptions and school updates.

1. Give it the facts

Tell the helper what happened, what families need to know or what the event is about.

2. AI helps draft

Turn those facts into a clear first draft without staff starting from a blank screen.

3. Staff reviews

An authorised person checks the wording, makes changes and decides whether it is right.

4. School publishes

Nothing needs to become public until the school is satisfied and chooses to publish it.

THE RULE

AI assists. The school decides.

The helper supports staff; it does not replace school judgement or editorial approval.

A strong school presence is free. Plus adds the power tools.

Every school gets the core community experience. School Plus is for schools that want SchoolCast and AI working alongside staff.

FREE SCHOOL

FREE

A real school presence - not a stripped-back trial.

- Verified school presence
- School-wide noticeboard
- News + announcements
- Events + FAQs
- Village Square visibility
- Achievements + activities
- Approved student stories
- Staff-controlled publishing
- No public comments/replies
- The Playground

SCHOOL PLUS

€500 / year + VAT

Everything in FREE, plus:

SchoolCast

Create staff-approved audio school updates - principal messages, news, sport and student stories.

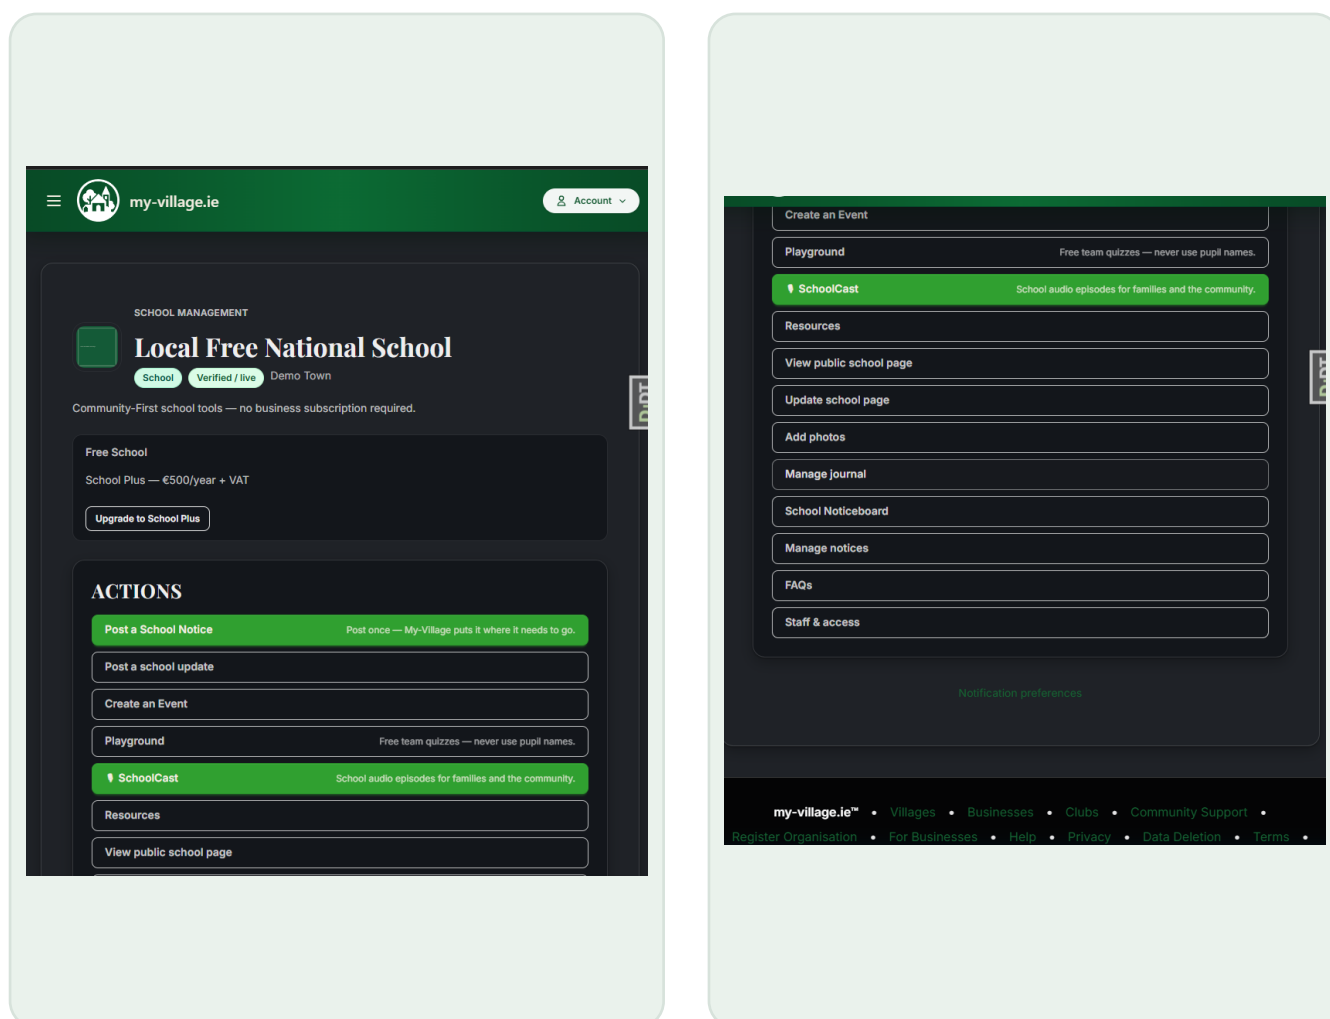

AI Helper

Helps authorised staff draft notices, events and school updates. AI assists; the school reviews and publishes.

One clear launchpad for authorised school staff.

The dashboard brings everyday publishing together. Staff choose the job they need, complete it and return to the same simple starting point.

POST ONCE - MY-VILLAGE PUTS IT WHERE IT NEEDS TO GO

Notices, updates, events, resources and school life.

Authorised staff can also update the public page, add photos, manage the journal and FAQs, control staff access, open the Playground and use SchoolCast from the same dashboard.

MY-VILLAGE FOR SCHOOLS

Give school life a trusted place in the community.

A strong free school presence, the Playground and safer publishing - with SchoolCast and AI in School Plus.

MY-VILLAGE FOR SCHOOLS

Your school. Your community.
